

<b>PROJECT</b>	Biogas Plant, Bremen
<b>DATE</b>	June 2000
<b>CUSTOMER</b>	Pen. Tec AB
<b>INDUSTRY</b>	Energy/Bioenergy
<b>LOCATION</b>	Bremen, Germany
<b>PRODUCTS</b>	PENETRON®

**CASE SUMMARY**

PENETRON® slurry spray treatment of fermentation tank walls. The inside of the tank walls was inspected after 6 years (2006) of biogas production. The Penetron® treated steel bar 50 mm thick protective concrete lining was reduced with less than 2 mm.

Untreated control tank – same concrete without Penetron® lost the 50 mm protective layer after less than 30 months.
